Subject: Letter of Recommendation for  
Mr. Wu Chi Wah, Francis of Kesford (Hong Kong) Limited

We held business relationship with Mr. Wu Chi Wah, Francis of Kesford (Hong Kong) Limited for Tung Chung and Island Road projects. Being a waterproofing and coating specialist, he works on behalf of Kesford (Hong Kong) Limited to provide brilliant technical advice and solve the water leakage problems for the abovesaid projects. His technical experience on execution of waterproofing and coating works really impressed me.

During the course of our business cooperation, Francis proved himself to be an eligible waterproofing and floor coating expert, his comprehensive knowledge in construction technology and sophisticated in waterproofing and coating construction field help us to complete the project smoothly and successfully.

Overall, Francis is a very conscientious and capable waterproofing and coating specialist. I am sure he has ability to implement more challengeable task in future and I will sublet our future projects to him without any hesitations.

As I acknowledge Francis went to Macau to further develop his business, I strongly believe Francis can bring along his board knowledge and skills of waterproofing and coating skills to Macau construction field, that to educate/ enrich local workers' knowledge and boost Macau's construction development.

Yours faithfully,

Choi Wing Cheung  
Project Manager
